English

We will begin with atmospheric poetry before exploring portal stories inspired by The Strange worlds Travel Agency. Children will develop setting and atmosphere, then write and edit their own portal adventure using dialogue, description, cohesion and accurate paragraphing. We will then move into non-fiction, planning and publishing a travel guide to an imagined world before finishing with a short persuasive advert or speech.

Maths

We will focus on Numbers up to 10,000,000 and Decimal Fractions. Children will develop their understanding of place value by composing, partitioning, comparing, ordering and rounding numbers up to 10 million, and by using number lines and scales. We will then explore tenths and hundredths, including the relationships between ones, tenths and hundredths, and compose and decompose numbers up to two decimal places.

Science

Our focus is Living Things and their Habitats. We will classify living things using observable characteristics and explore how scientists group organisms. We will also investigate microorganisms, considering that some are helpful while others can be harmful.

Eastern Europe

Eagles
Autumn 2

P.E.

Our PE focus is tag rugby. Children will develop passing, receiving, evasion and movement into space before applying these skills in small-sided games. We will also focus on teamwork, communication, decision-making and safe, fair play.

Geography

Our geography topic is Eastern Europe. We will use maps, atlases and digital mapping to locate countries, capitals and key physical features. Children will compare places, explore human and physical geography and develop their understanding of Europe as a diverse continent.

PSHE

Through SCARF's Valuing Difference unit, we will explore what makes people unique and why differences should be respected. Children will consider stereotypes, friendships, respectful communication and how our words and actions can help everyone feel included.

Design and Technology

Our Design and Technology focus is cooking. Children will explore ingredients, food preparation and kitchen safety, following and adapting recipes where appropriate. We will consider healthy choices and evaluate the finished product against our intended outcome.

French

Our French learning will have a Christmas focus. Children will learn and practice seasonal vocabulary through speaking, listening, reading and short written activities, while continuing to build confidence with pronunciation and familiar sentence patterns.

RE

Our big question is: What is the significance of Karma and moksha for a Hindu? We will explore these important Hindu beliefs, consider how actions and choices may be understood to have consequences, and discuss how beliefs can influence the way people live

Computing

Our computing focus is web pages. Children will explore how websites are organized and designed, considering layout, text, images, navigation and audience. They will create and refine their own content while continuing to make safe and responsible choices online.

Music

Our music focus is the glockenspiel. Children will develop accuracy when playing tuned percussion, follow simple notation and build confidence performing together. We will listen carefully to pitch, pulse and rhythm and use these skills to create and perform musical ideas.
